

# Recovery Based Working with Voice Hearers:

## Principles, Interviewing and Coping Strategies

### The next delivery of this module commences on:

Wednesday 29th October 2008 at Birmingham City University.  
The module runs for 7 weeks, each Wednesday from 10am – 3pm.

### Key themes include:

- The problem with the medical explanation for 'schizophrenia', and credible alternatives
- An introduction to the Hearing Voices work of Marius Romme and Sandra Escher
- Using the Maastricht Interview Schedule to construct the voice hearer's story
- Identifying and applying useful coping strategies
- Setting up groups for voice hearers
- Overcoming barriers to implementing new ways of working

### To enrol on the module:

please contact Birmingham City University Admissions Department,  
on 0121 331 5500
